Nkeng Sama Mokom

Software Developer

samamokom50@gmail.com · +237 674138372
LinkedIn · GitHub · Website Buea, Cameroon

A passionate Software Developer with a keen interest in creating innovative solutions. Currently a student at the University of Buea, where I am honing my skills in Software Development and related Technologies. I believe in the power of technology to transform lives and I'm enthusiastic to contribute to the dynamic and ever changing field which is Software Development. Whether it be building responsive websites or exploring and learning new technologies and frameworks, I am committed to learning and delivering high quality work that meets the needs of the users and clients alike.

Technical Proficiencies

Front-end Development:	ECMAScript - ES6, ES7, ES8, ES9, HTML5/CSS3, Vue.js , React.js,
Back-end Development	Node.js, PHP/Laravel, Express.js
DevOps, Version Control & Databases	Git, MySQL, PostgreSQL

Career Experience

Software Developer • Njomi Tech Solutions, Douala, Cameroon   **08/2025 – Present**

- Contributed directly to the development and enhancement of the **Educlynk Platform** (home tutor finding service) by resolving codebase issues and implementing new features.
- Developed and deployed several new client-facing web pages, including **FAQ** and **Referral pages**, significantly improving website functionality and user experience.
- **Collaborated** with the Head of Development to design and build interactive learning components for the new Learning Hub platform, allowing students to watch course content, answer questions, and receive real-time feedback.
- Created a dynamic **Leaderboard component** to gamify the user experience by ranking top students based on the number of correctly answered questions, driving platform engagement.

Software Developer Intern • V-Groups, Yaounde, Cameroon   **06/2025 – 8/2025**

- Fulfilled tasks presented by the supervisor, attended meetings, and performed research as per supervisor's request.
- **Developed and deployed** a scalable e-commerce platform, handling both front-end and back-end development.
- **Utilized** a modern tech stack including Vue.js for the front end, Node.js and Express for the back end, and PostgreSQL for the database.
- **Hosted** the full-stack application on Render, and integrated cloud services like Neon for database hosting and Supabase for product image storage.

Full Stack Development Intern • Landmark Software Solutions, Buea, Cameroon
07/2024 – 08/2024

Completed a 2 month internship within the Full Stack Development hub.

- Played a crucial role in the company's IT initiatives, contributing to the planning, development, and deployment of computerized solutions.
- Involved in strategic planning, hands-on development, and successful deployment of IT projects.
